

## **Artisan Marketplace at the 13th annual Grand Prix of Art, Steveston**

**Phoenix Art Workshop** and the **City of Richmond** are inviting select artists to participate in the 13th annual Grand Prix of Art **Artisan Marketplace** on **July 22, 2023**.

We would like to extend an opportunity to market-ready artisans, working in creative mediums, who wish to participate in our second Artisan Marketplace at **Britannia Shipyards National Historic Site** our host location for the event. There is no cost to participate for selected artisans, however artisans must provide their own 10' x 10' tent, display tables, and are encourage to have some demonstrative or interactive feature at their booth to engage visitors and build awareness of the artistic process. Artisans should be prepared to self-manage, and promote the sale of their work independent from the event. No commissions are taken on sales. A dedicated loading area close to your both will be available for set-up from 10am - 11am and after 4:30pm for tear down. Artisans should be set up by 12:00pm, with the anticipated peak time for visitors between 1pm and 4 pm. A dedicated page for each artisan will be posted to our event website [www.grandprixofart.ca/artists](http://www.grandprixofart.ca/artists). With a limited amount of space, we are seeking creative and motivated individuals whose craft will enhance the overall experience of event attendees. ( see application below)

### **About the event:**

Over 100 competing artists are randomly allocated one of 35 painting locations along the historic Steveston waterfront, from Garry Point Park to London Landing, and have 3 hours to complete a painting *en plein-air*. Artists return their work to Britannia Shipyards for display and adjudication and enjoy an artists picnic, live music and entertainment, an interactive artisan market, and food trucks for all art-loving enthusiasts and spectators.

Our host location Britannia Shipyards National Historic Site is situated in the heart of the Japanese Fishing Village of Steveston at the mouth of the Fraser River, nestled between 100-year old Cannery Buildings and Boat Works in a location that at one time held the largest fleet of gill-net fishing boats in North America.

For more information please contact **Mark Glavina 604-448-1860**
